## RELEVANT EXPERIENCE

### Quidax Technologies, Remote — *Frontend Engineer*

JUNE 2020 - PRESENT

My primary task is to work on features on the customer and transaction development teams across our front-end stack, including our web app, and our react-native mobile app.

### Tete Technologies, Remote — *Frontend Developer*

JANUARY 2020 - JUNE 2020

Worked as the sole frontend developer on the MVP for this early-stage startup. The core app is a mobile gaming application powered with WebSocket for its real-time multiplayer feature.

### Voyance, Remote — *Frontend Developer*

DECEMBER 2018 - AUGUST 2019

Worked directly with the CTO on the frontend ecosystem for this early-stage startup. My work included building marketing websites, and web app interfaces using React.

### Softcom Limited, Lagos — *UX Developer*

JUNE 2018 - APRIL 2019

Worked as a core member of the UX team; built and managed their design system. I also worked on building interfaces for their flagship fin-tech product, Eyowo.

## EDUCATION

### Lambda School, California, USA — *Fullstack Web Development & Computer Science*

AUGUST 2019 - JUNE 2020

### Federal University of Agriculture, Abeokuta — *BSc Economics*

SEPTEMBER 2013 - MARCH 2019

## SKILLS

HTML, CSS, SASS/SCSS, JavaScript, React, React-Native, Redux, GraphQL, Git, Nodejs, Python.

## OTHER EXPERIENCE

### Teaching Assistant @ Stutern

Mentored a total of 10 students on a web development learning path for a period of 7 months.

### Technical Team Lead @

**Lambda School** Led two different remote teams across the EMEA region through a full product development lifecycle over a 16-week project unit. This included product releases, code reviews, and stakeholder management. Each team had 6 software developer students.
